

Trip to Wicken Fen

Day one -

Me and my mum left at 11:30am. We took a small detour at white fen and went through a small grass path to look at some deer. Then we stopped to have a late lunch at the bridge. (On the way we also saw a husk of hares and lots of different birds.) The wildlife was very interesting and diverse. When we arrived I set up the tent and cooked us some food on the barbecue.

Day two-

We woke up at 6:30am and set off. After about an hour we started walking along the Great Ouse and it started raining (by this point I realised I definitely did not bring enough food). When we arrived in Ely we grabbed lunch and bought food for the next two days, then we went to Ely Cathedral for a small intimate service which felt really special. Then we walked to the Travelodge and stayed overnight.

Day three-

We went out for breakfast and also went to the Ely Museum, where I learned a lot about Ely's history. Then we started walking to the campsite and saw a fire truck on the path so we had to be careful. Then we saw a herd of cows which we took lots of photos of. We arrived at the motorhome and I cooked us some noodles and vegetables.

Day four-

I decided we should set off early in the morning so we could see the sunrise. We left at 3:00 am and started our walk. There was lots of pollen in the air and as someone who has hayfever that day was not the most enjoyable. Because it was so early in the morning there were not many animals out apart from a few birds and one hare. Finally we arrived home.

I think this experience has really made me feel more confident that I can do stuff myself and that I should always take opportunities like this and really enjoy them as I feel I have learnt a lot. I was especially proud of myself for doing the interview because I was quite nervous.

Thank you for giving me this opportunity.
