

Henry Morris

A trip to Sheringham

Featuring Amber Smith, Hester Rudkin, Ava Rudkin,
Sophie Blundell, Hazel Weaver and Thea Agar.

The Journey There

We began our journey at Cambridge North station, where we then took a train independently to Norwich to transfer over to the train all the way to Sheringham.

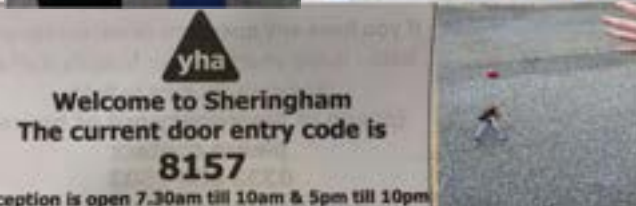

The Arrival

Once we arrived at Sheringham, we decided to explore the town before we met up with Hazel's mum to check in at the YHA Hostel. After settling into the hostel, we went food-shopping (at the local Tesco) where we split our own money that we contributed evenly.

Then that evening for dinner we bought some Fish & Chips and had a stroll along the beach.

THE EXPEDITION

During our hike, we came across a variety of gorgeous landscapes and habitats that make the area unique and special. We were overwhelmed with the amount of beauty of the coast. It was hard to believe that we were only a few hours away from the bustle of Cambridge.

Nature

Weybourne camp, served as a vital anti-aircraft training center from 1937 until its closure in 1959.

On our walk we came across an Allan-Williams Turret (AWT), a type of pre-fabricated steel defense structure used in the United Kingdom during World War II. There are only 33 in the UK.

History

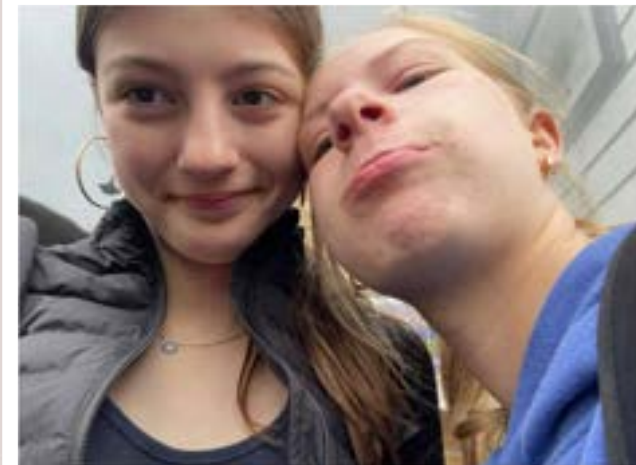

The history of Sheringham, is deeply rooted in the land and people. Sheringham is a historic coastal town in Norfolk, it transformed from a small Viking fishing settlement into a bustling Victorian seaside resort.

Return to Sheringham

On our return to Sheringham we used our ingredients previously bought at the local Tesco and made pasta together. We were quite tired but felt such a sense of achievement that we completed the walk.

We proceeded to clear up and later we went down to the communal games room in the hostel. It was really welcoming and fun.

On our final day, we went into Sheringham and found there was a vintage car show . It was such a wonderful event, and we really felt lucky to have experienced this fair.
